APP MYCAFE

Your All-in-One Restaurant Management System

PROBLEM STATEMENT

- Being starved of workers is a constant predicament for F&B business owners

- Boom in F&B establishments in recent years has exacerbated demand for manpower

- The increased competition impacts profits and productivity

USER STORY

- As a restaurant owner, I want to automate my business processes so that I can increase productivity

  - Customers can make orders without engaging service staff

  - Kitchen receives orders promptly in realtime

  - Service staff will be notified electronically if assistance is required

  - Management can get an overview of daily sales

OUR SOLUTION

- YumYum is your all-in-one web app to automate your restaurant's order management system, allowing you to streamline your operations

FEATURES

- Table allocation

- Kitchen order management

- Integration with e-Menu

- Sales reports
